Date of birth: March 3rd 2004

Education:

- 2024 Admitted into the Berlin Mathematical School
- 2021-2024 Completed a bachelor degree Summa Cum Laude in mathematics at Leiden University, including ~30EC worth of extracurricular graduate level courses.
- 2016-2021 Graduated Secondary school (*middelbare school*) Cum Laude at De Goudse Waarden in Gouda, the Netherlands
 - Completed the 2nd and 3rd year in 1 year.
 - Completed the Mathematics B subject in 2020 (1 year earlier)
- 2019/2020 During secondary school, finished the Bsc Mathematics courses Algebra 1 (in Spring 2019) and Linear Algebra 1 (in Fall 2020) at Leiden University
- 2019 Was a member of the Dutch team of the 2019 International Junior Science Olympiad (IJSO) in Qatar
- 2021 Reached the top 10 of the KNAW Education prize 2021 in the category of Science & Health with a school research project
- 2020 Participated in the final round of the Dutch Chemistry Olympiad
- 2020 Participated in the second round of the Dutch Mathematics Olympiad

Attended conferences:

- Oct. 2025 [Higher Invariants: interactions between arithmetic geometry and global analysis](#), Regensburg
- Mar. 2025 [Motivic homotopy theory](#), Regensburg
- Jan. 2025 [Higher Geometric Structures along the Lower Rhine XVIII](#), Nijmegen

Further academic activities:

- Fall 2025 Initiated a student run seminar on higher categories, organised with 2 other students
- 2025 Member of the BMS 'What if...?' seminar organising committee
- 2025 Gave 2 talks in the research seminar of Holger Reich's algebraic topology research group

Mathematical works:

- May 2024 Sheaf Homology (bachelor thesis), see <https://hdl.handle.net/1887/4104583>

Working experience:

- 2018-2022 Tutoring high school students in mathematics & physics during the last 3 years of high school and the first year of university.

Fall 2022	Teaching assistant for Linear Algebra 1 at Leiden University
Fall 2023	Teaching assistant for Algebra 2 at Leiden university

Language proficiency:

Fluent	Dutch, English
--------	----------------

Programming languages:

Python (10 years of experience), LaTeX, R, C++

Miscellaneous:

2021-now	Member of the student board game association LSV Het Duivelsei,
2022-2023	therein member of the Monopoly-race committee.
2016-2024	Practising Aikido and Kayaking
